PROFILE

Queer, non-binary, neurodivergent person of colour with lived experience of discrimination, social isolation, homelessness, family violence and understanding of issues affecting TGD people in Naarm. I have four years professional experience in community services, including a year as a peer worker with LGBTQIA+ clients of Thorne Harbour Health. I have developed significant transferable skills via ten years in the finance sector wherein I honed my people and problem-solving skills and proved my ability to communicate respectfully and effectively with people from all walks of life. I excel in roles requiring strong interpersonal skills. I left the finance sector due to the nature of the work and a misalignment of this work with my personal values. I am driven to affect meaningful change for marginalised and vulnerable cohorts. Serving as a TGD Peer Navigator for Transgender Victoria would be a deeply fulfilling opportunity to empower my community.
